

Scalability & Future Plan

Date	06 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

1. Current System Limitations:

S.No	Limitation	Impact	Priority to Address
1	Application runs only on the local Flask server.	Users cannot access the application remotely.	High
2	Prediction accuracy depends on dataset quality and size.	Limited or poor-quality data may reduce prediction accuracy.	High
3	No user authentication or database integration.	Applicant records cannot be securely stored or managed.	Medium

2. Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users on local server.	Deploy on cloud with load balancing.
2	Data Storage	No permanent applicant data storage.	Integrate MySQL/PostgreSQL database.
3	Performance	Efficient for small-scale usage.	Optimize model and use scalable cloud infrastructure.
4	Security	No authentication or encryption.	Add login, HTTPS and data encryption.

3. Future Roadmap

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1			
Phase 2	Cloud deployment and database integration.	3–6 Months	Improves accessibility and scalability.
Phase 3	User authentication, dashboard and prediction history.	6–9 Months	Enhances security and usability.
Phase 4	Advanced ML models, Explainable AI and mobile support.	9–12 Months	Improves accuracy and user experience.
